

Welcome to Year 1 of Fuse RI!

Please complete the following blended learning readiness survey. Your responses will help us better understand both where you are now and where you want to go in regard to blended learning in your district or LEA.

This survey will be a catalyst for conversation and will help inform how the Fuse RI project can be most valuable to you and your district team.

The questions are based on research and best practices regarding district and school level readiness for blended learning. We acknowledge that some questions may describe rudimentary practices while others may describe practices that seem far beyond your current capacity and/or focus. It's understandable if some of these questions are outside your role or knowledge area.

We do not want to make assumptions about you or your LEA so this survey helps us to better understand where you are now in regard to some of the supports that will be offered throughout the two year Fuse RI process.

Please respond as honestly and accurately as possible using the appropriate scales. Feel free to use the N/A or "I don't know" buttons if you do not feel that you are able to answer the question based upon your unique vantage point within your district or LEA.

All of the data that you submit will be kept completely confidential between your team, your assigned Fuse RI Fellows, and Highlander Institute. We will share your aggregated data with you during our kickoff meeting in early fall.

Thank you for your time. If you have any questions please do not hesitate to contact Maeve Murray at mmurray@highlanderinstitute.org
